Assignment 2

Goal: In the Patient Form, implement the following functionality

1. On Click of the reset button, all control values should be cleared
2. On Click of submit button, create an object with the values set in the form and log it via console.log
3. If the Patient is a minor, show an alert with the message "Please add a contact for the Patient as he / she (depending on the gender), is a minor".

Instructions for submission:

Separate your HTML, CSS and Javascript into different files and zip them. Name the zip file in the following format

FIRSTNAME_LASTNAME_ASSIGNMENT_01.zip
